Notes from Dan and DeAnn!!

**Thanks being in ministry with us. We are blessed to have you as part of our ministry team.*

Saying "Thank You!" From South of the Border!!!

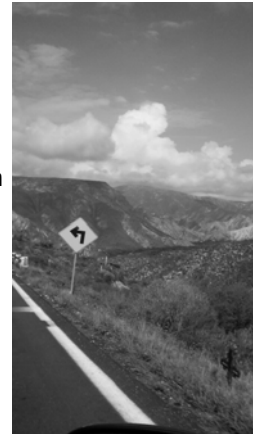

The view outside of immigration about half an hour into Mexico. If they had wanted they could have had us unload everything and then turn around and go back! God is good and got us through with no problems!

Driving in the mountains, even in the daytime, can be tough. Thank God for good brakes!

Two countries, five U.S. states, six hours of mountain driving (unexpected I might add!), more than a hundred Mexican speed bumps, and three thousand miles later we are finally in Mexico. After two years of planning and three months of support raising, God has blessed us in incredible ways as we find ourselves beginning our ministry in Puebla Mexico.

Thank you so much for your part in our ministry here. We have been so blessed as we raised support this year. God does work in incredible ways and it is a faith building experience as you see how God does provide and how He does have a plan from the beginning. Thank you for your faithfulness in responding to His call. We appreciate your prayers and will be praying for you. And thank you for the financial support. Without it we wouldn't be here.

Turn left for Mexico!

Prayer Requests:

- Praise God for all our support coming in!!!
- Praise God for a safe trip and no problems at the border!!!
- Praise God for housing already found. (We will be staying in the Morgan's house as they will be on furlough as of December.
- Pray for direction for us in this ministry. As we begin to see how big the Catalytic ministry could be, we are more convinced than ever that it won't be us but God who has the right ideas.
- Pray for our adjustment to the culture and especially for DeAnn as she learns the language!

This was the hotel we found at 10:30 at night in a small town that we don't know the name of. It cost us 100 pesos for the night (about 10 dollars.)

Here is a picture tour of our journey to Mexico. (More will be on the web once we have some time to think down here!!!)

Phin looking sad from too much time in the car. We felt the same way! Four straight 10-12 hour days.

Finally arriving loaded down in Puebla. This is in front of the Morgan's house where we are staying.
